

The District has hired PACE Engineering, Inc. and ENPLAN to assist in the planning and design of the new facilities. We would like to meet with USFS staff at the East Weaver WTP to review the existing facilities and discuss the proposed improvements. Please contact the District office at 530-623-5051 or my mobile at 530-784-1001 to arrange a time to meet on-site. The District appreciates your time and effort to make this a successful project.

Sincerely,

Tim Kasper
General Manager
